

Teladoc Health Solo Lite

Virtual care for emergent clinical settings

As the healthcare landscape shifts, hospitals and health systems need to extend care and expertise into more use cases and environments—including rural and under served areas—with integrated virtual health devices.*

The Solo Lite is designed to make virtual visits feel more natural, expanding virtual care across your organization. Purpose-built for crowded, noisy patient locations, the Solo Lite provides a more authentic virtual care experience for your staff and patients. Empower remote clinicians with the tools and confidence required to make quick, informed decisions.

Transforming care delivery and reach

Teladoc Health offers a fully integrated suite of connected care solutions to help hospitals and health systems of all sizes provide innovative in-house telehealth solutions to their patients.

Best practices from 1,500+ telehealth implementations

The Solo Lite is just one part of an enterprise-wide virtual care solution designed to support personalized care in any clinical environment and harness data analytics through a single platform to improve the health of whole communities.

KEY BENEFITS

**24/7 proactive fleet
(or system) monitoring**
ensure the most reliable
virtual care delivery

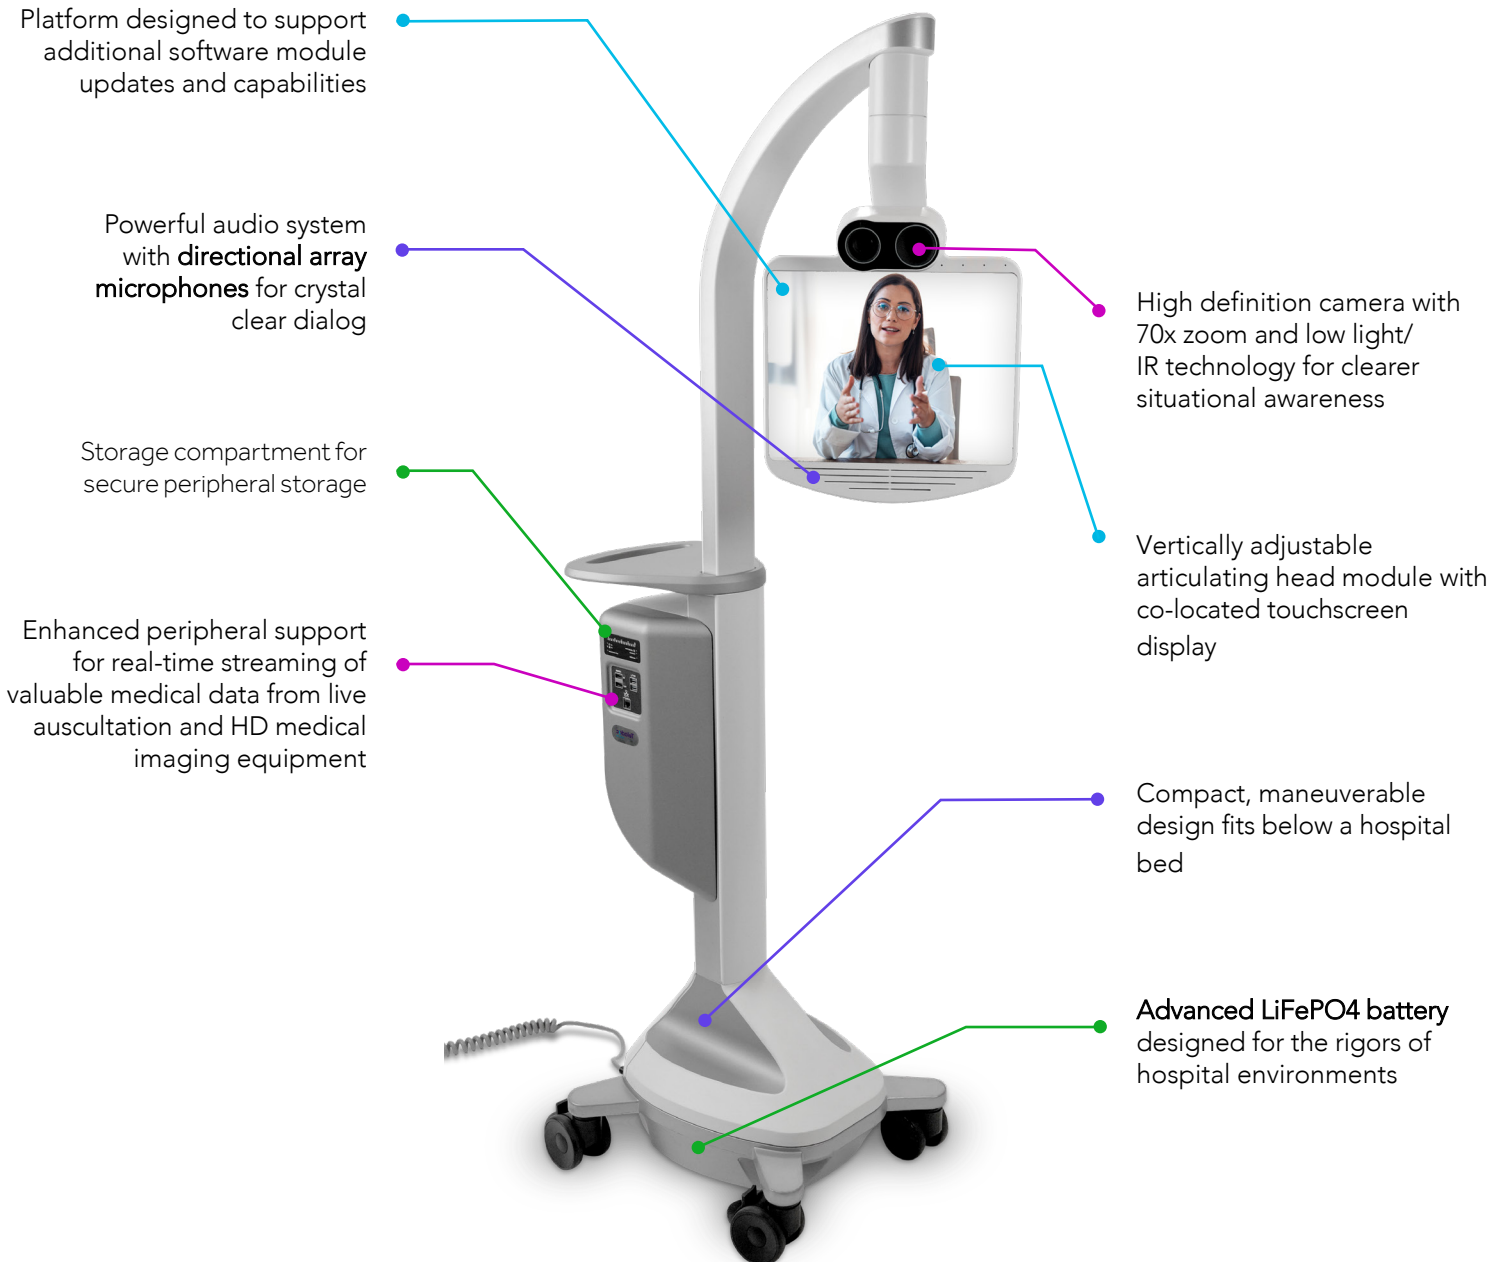

Extend clinical expertise
whenever and wherever it's
needed with a highly
portable and durable
device
